NOTICE OF 2016 ANNUAL MEETING OF STOCKHOLDERS

Notice is hereby given that the 2016 Annual Meeting of Stockholders of Sage Therapeutics, Inc. will be held on Wednesday, June 22, 2016, at 9:00 a.m. Eastern Time, at our headquarters located at 215 First Street, Cambridge, Massachusetts 02142. The purpose of the meeting is the following:

1. to elect two directors, Kevin P. Starr and James Frates, to serve as Class II directors until the 2019 annual meeting of stockholders and until their successors are duly elected and qualified, subject to their earlier resignation or removal;
2. to ratify the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2016;
3. to hold an advisory vote to determine the frequency of future stockholder advisory votes on the compensation paid to our named executive officers; and
4. to transact such other business as may properly come before the meeting or at any and all adjournments or postponements thereof.

The proposal for the election of directors relates solely to the election of Class II directors nominated by the Board of Directors.

Only Sage Therapeutics, Inc. stockholders of record at the close of business on April 25, 2016, will be entitled to vote at the meeting and any adjournment or postponement thereof.

We are pleased to take advantage of Securities and Exchange Commission rules that allow companies to furnish their proxy materials over the Internet. We are mailing to many of our stockholders a Notice of Internet Availability of Proxy Materials, or Notice, instead of a paper copy of our proxy materials and our 2015 Annual Report on Form 10-K. The Notice contains instructions on how to access those documents and to cast your vote via the Internet. The Notice also contains instructions on how to request a paper copy of our proxy materials and our 2015 Annual Report on Form 10-K. All stockholders who do not receive a Notice will receive a paper copy of the proxy materials and the Annual Report by mail. This process allows us to provide our stockholders with the information they need on a more timely basis, while reducing the environmental impact and lowering the costs of printing and distributing our proxy materials.

Your vote is important. Whether or not you are able to attend the meeting in person, it is important that your shares be represented. To ensure that your vote is recorded promptly, please vote as soon as possible, even if you plan to attend the meeting, by submitting your proxy via the Internet at the address listed on the proxy card or by signing, dating and returning the proxy card.

By Order of the Board of Directors,

PROXY STATEMENT
FOR THE 2016 ANNUAL MEETING OF STOCKHOLDERS**

GENERAL INFORMATION

When are this proxy statement and the accompanying materials scheduled to be sent to stockholders?

We have elected to provide access to our proxy materials to our stockholders via the Internet. Accordingly, on or about April 29, 2016, we will begin mailing a Notice of Internet Availability of Proxy Materials, or Notice of Internet Availability, and the proxy materials, including the Notice of 2016 Annual Meeting of Stockholders, this proxy statement and accompanying proxy card or, for shares held in street name (held for your account by a broker or other nominee), voting instruction form, and the Annual Report on Form 10-K for the year ended December 31, 2015, or 2015 Annual Report on Form 10-K, will be made available to stockholders on the Internet on the same date.

Why did I receive a Notice of Internet Availability of Proxy Materials instead of a full set of proxy materials?

Pursuant to rules adopted by the Securities and Exchange Commission, or SEC, we are providing access to our proxy materials over the Internet rather than printing and mailing the proxy materials. We believe electronic delivery will expedite the receipt of materials and will help lower our costs and reduce the environmental impact of our annual meeting materials. Therefore, a Notice of Internet Availability will be mailed to holders of record and beneficial owners of our common stock starting on or around April 29, 2016. The Notice of Internet Availability will provide instructions as to how stockholders may access and review the proxy materials, including the Notice of Annual Meeting, proxy statement, proxy card and 2015 Annual Report on Form 10-K, on the website referred to in the Notice of Internet Availability or, alternatively, how to request that a copy of the proxy materials, including a proxy card, be sent to them by mail. The Notice of Internet Availability will also provide voting instructions. In addition, stockholders of record may request to receive the proxy materials in printed form by mail or electronically by e-mail on an ongoing basis for future stockholder meetings. Please note that, while our proxy materials are available at the website referenced in the Notice of Internet Availability, and our Notice of Annual Meeting, proxy statement and Annual Report on Form 10-K are available on our website, no other information contained on either website is incorporated by reference in or considered to be a part of this document.

IMPORTANT NOTICE REGARDING THE INTERNET AVAILABILITY OF PROXY MATERIALS FOR THE ANNUAL STOCKHOLDERS MEETING TO BE HELD ON JUNE 22, 2016: *This proxy statement, the accompanying proxy card or voting instruction card and our 2015 Annual Report on Form 10-K are available at <http://www.proxyvote.com>.*

In this Proxy Statement, the terms “Sage,” “we,” “us,” and “our” refer to Sage Therapeutics, Inc. The mailing address of our principal executive offices is Sage Therapeutics, Inc., 215 First Street, Cambridge, Massachusetts 02142.

Who is soliciting my vote?

Our Board of Directors (the “Board of Directors”) is soliciting your vote for the 2016 Annual Meeting of Stockholders, or Annual Meeting.

When is the record date for the Annual Meeting?

As of the close of business on April 25, 2016, the record date for determination of stockholders entitled to vote at the Annual Meeting.

[Table of Contents](#)

How many votes can be cast by all stockholders?

There were 32,062,773 shares of our common stock, par value \$0.0001 per share, outstanding on April 25, 2016, all of which are entitled to vote with respect to all matters to be acted upon at the Annual Meeting. Each stockholder of record is entitled to one vote for each share of our common stock held by such stockholder. None of our shares of undesignated preferred stock were outstanding as of April 25, 2016.

How do I vote?

In Person

If you are a stockholder of record, you may vote in person at the meeting. We will give you a ballot when you arrive. If you hold your shares through a bank or broker and wish to vote in person at the meeting, you must obtain a valid proxy from the firm that holds your shares.

By Proxy

If you do not wish to vote in person or will not be attending the meeting, you may vote by proxy. You can vote by proxy over the Internet by following the instructions provided in the Notice of Internet Availability, or, if you requested printed copies of the proxy materials by mail, you can vote by mailing your proxy as described in the proxy materials. You may also authorize another person or persons to act for you as proxy in a writing, signed by you or your authorized representative, specifying the details of those proxies' authority. The original writing must be given to each of the named proxies, although it may be sent to them by electronic transmission if, from that transmission, it can be determined that the transmission was authorized by you. If you complete and submit your proxy before the meeting, the persons named as proxies will vote the shares represented by your proxy in accordance with your instructions. If you submit a proxy without giving voting instructions, your shares will be voted in the manner recommended by the Board of Directors on all matters presented in this Proxy Statement, and as the persons named as proxies may determine in their discretion with respect to any other matters properly presented at the meeting.

If any other matters are properly presented for consideration at the Annual Meeting, including, among other things, consideration of a motion to adjourn the Annual Meeting to another time or place (including, without limitation, for the purpose of soliciting additional proxies), the persons named in the enclosed proxy card and acting thereunder will have discretion to vote on those matters in accordance with their best judgment. We do not currently anticipate that any other matters will be raised at the Annual Meeting.

How do I revoke my proxy?

You may revoke your proxy by (1) following the instructions on the Notice of Internet Availability and entering a new vote by mail or over the Internet before the Annual Meeting or (2) attending the Annual Meeting and voting in person (although attendance at the Annual Meeting will not in and of itself revoke a proxy). Any written notice of revocation or subsequent proxy card must be received by our Secretary prior to the taking of the vote at the Annual Meeting. Such written notice of revocation or subsequent proxy card should be hand delivered to our Secretary or sent to our principal executive offices at Sage Therapeutics, Inc., 215 First Street, Cambridge, Massachusetts 02142, Attention: Corporate Secretary.

If a broker, bank, or other nominee holds your shares, you must contact such broker, bank, or nominee in order to find out how to change your vote.

How is a quorum reached?

Our By-laws provide that a majority of the shares entitled to vote, present in person or represented by proxy, will constitute a quorum for the transaction of business at the Annual Meeting. Under the General Corporation Law of the State of Delaware, shares that are voted "abstain" or "withheld" and broker "non-votes" are counted as present for purposes of determining whether a quorum is present at the Annual Meeting.

How is the vote counted?

Under our By-laws, any proposal other than an election of directors is decided by a majority of the votes properly cast for and against such proposal, except where a larger vote is required by law or by our Certificate of Incorporation or By-laws. Abstentions and broker “non-votes” are not included in the tabulation of the voting results on any such proposal and, therefore, do not have the effect of votes in opposition to such proposals. A broker “non-vote” occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that item, and has not received instructions from the beneficial owner.

If your shares are held in “street name” by a brokerage firm, your brokerage firm is required to vote your shares according to your instructions. If you do not give instructions to your brokerage firm, the brokerage firm will still be able to vote your shares with respect to certain “discretionary” items, but will not be allowed to vote your shares with respect to “non-discretionary” items. Proposals 1 and 3 are “non-discretionary” items. If you do not instruct your broker how to vote with respect to those proposals, your broker may not vote for those proposals, and those votes will be counted as broker “non-votes.” Proposal 2 is considered to be a discretionary item, and your brokerage firm will be able to vote on this proposal even if it does not receive instructions from you.

Who pays the cost for soliciting proxies?

We are making this solicitation and will pay the entire cost of preparing and distributing the Notice of Internet Availability and these proxy materials and soliciting votes. If you choose to access the proxy materials or vote over the Internet, you are responsible for any Internet access charges that you may incur. Our officers and employees may, without compensation other than their regular compensation, solicit proxies through further mailings, personal conversations, facsimile transmissions, e-mails, or otherwise. We have hired Broadridge Financial Solutions, Inc. to assist us in the distribution of proxy materials and the solicitation of votes described above. Proxy solicitation expenses that we will pay include those for preparation, mailing, returning, and tabulating the proxies.

How are matters submitted for consideration at an annual meeting?

Stockholder proposals intended to be presented at the next annual meeting of our stockholders must satisfy the requirements set forth in the advance notice provision under our By-laws. To be timely for our next annual meeting of stockholders, any such proposal must be delivered in writing to our Secretary at 215 First Street, Cambridge, MA 02142 between the close of business on February 22, 2017, and March 24, 2017. If the date of the next annual meeting of the stockholders is scheduled to take place before May 23, 2017, or after August 21, 2017, notice by the stockholder must be delivered no later than the close of business on the later of (1) the 90th day prior to such annual meeting or (2) the 10th day following the day on which public announcement of the date of such meeting is first made.

In addition, any stockholder proposal intended to be included in the proxy statement for the next annual meeting of our stockholders must also satisfy the SEC regulations under Rule 14a-8 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and be received not later than December 18, 2016. If the date of the annual meeting is moved by more than 30 days from the date contemplated at the time of the previous year’s proxy statement, then notice must be received within a reasonable time before we begin to print and send proxy materials. If that happens, we will publicly announce the deadline for submitting a proposal in a press release or in a document filed with the SEC.

OVERVIEW OF PROPOSALS

This Proxy Statement contains three proposals requiring stockholder action. Proposal 1 requests the election of two Class II directors to the Board of Directors. Proposal 2 requests the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2016. Proposal 3 requests an advisory vote to determine the frequency of future stockholder advisory votes on the compensation paid to our named executive officers. Each of the proposals is discussed in more detail in the pages that follow.

PROPOSAL 1

ELECTION OF DIRECTORS

The Board of Directors is divided into three classes. One class is elected each year at the annual meeting of stockholders for a term of three years. Vacancies on the Board of Directors are filled exclusively by the affirmative vote of a majority of the remaining directors, even if less than a quorum is present, and not by stockholders. A director elected by the Board of Directors to fill a vacancy in a class shall hold office for the remainder of the full term of that class, and until the director's successor is duly elected and qualified or until his or her earlier resignation, death, or removal.

The terms of the Class II directors are scheduled to expire on the date of the upcoming Annual Meeting. Based on the recommendation of the Nominating and Corporate Governance Committee of the Board of Directors, or Nominating and Corporate Governance Committee, the Board of Directors' nominees for election by the stockholders are the current Class II members: Kevin P. Starr and James Frates. If elected, each nominee will serve as a director until the annual meeting of stockholders in 2019 and until his successor is duly elected and qualified, or until his earlier death, resignation, or removal.

The names of and certain information about the directors in each of the three classes are set forth below. There are no family relationships among any of our directors or executive officers.

It is intended that the proxy in the form presented will be voted, unless otherwise indicated, for the election of the Class II director nominees to the Board of Directors. If any of the nominees should for any reason be unable or unwilling to serve at any time prior to the Annual Meeting, the proxies will be voted for the election of such substitute nominee as the Board of Directors may designate.

Vote Required and Board of Directors' Recommendation

Directors will be elected by a plurality of the votes cast by the stockholders entitled to vote on this proposal at the Annual Meeting. Broker non-votes and proxies marked to withhold authority with respect to one or more Class II directors will not be treated as votes cast for this purpose and, therefore, will not affect the outcome of the election.

The proposal for the election of directors relates solely to the election of Class II directors nominated by our Board of Directors.

Our Board of Directors recommends that stockholders vote FOR the election of each of the Class II director nominees listed above.

CORPORATE GOVERNANCE

Board and Committee Matters

Board Leadership and Independence. Our Board of Directors has determined that all members of the Board of Directors, except Dr. Jonas and Mr. Starr, are independent, as determined in accordance with the rules of the NASDAQ Stock Market, or NASDAQ. In making such independence determination, the Board of Directors considered the relationships that each such non-employee director has with us and all other facts and circumstances that the Board of Directors deemed relevant in determining his or her independence, including the beneficial ownership of our capital stock by each non-employee director. In considering the independence of our directors, our Board of Directors considered the association of our directors with the holders of more than 5% of our common stock. There are no family relationships among any of our directors or executive officers.

The positions of our Chairman of the Board of Directors (“Chairman of the Board”) and Chief Executive Officer are presently separated. Separating these positions allows our Chief Executive Officer to focus on our day-to-day business, while allowing the Chairman of the Board to lead the Board of Directors in its fundamental role of providing advice to and independent oversight of management. Our Board of Directors recognizes the time, effort and energy that the Chief Executive Officer must devote to his position in the current business environment, as well as the commitment required to serve as the Chairman of the Board, particularly as the Board of Directors’ oversight responsibilities continue to grow. Our Board of Directors also believes that this structure ensures a greater role for the non-management directors in the oversight of our company and active participation of the independent directors in setting agendas and establishing priorities and procedures for the work of our Board of Directors. Our Board of Directors believes its administration of its risk oversight function has not been affected by its leadership structure. Although our By-laws do not require our Chairman of the Board and Chief Executive Officer positions to be separate, our Board of Directors believes that having separate positions is the appropriate leadership structure for us at this time.

Board Meetings and Committees. Our Board of Directors held four meetings during 2015. The directors regularly hold executive sessions at meetings of the Board of Directors. During 2015, none of our directors then in office attended less than 75% of the aggregate of all meetings of the Board of Directors and all meetings of the committees of our Board of Directors on which such director then served. Continuing directors and nominees for election as directors in a given year are required to attend the annual meeting of our stockholders, barring significant commitments or special circumstances.

During 2015, our Board of Directors had four standing committees: Audit Committee, Compensation Committee, Nominating and Corporate Governance Committee, and Science and Technology Committee.

Audit Committee. Michael F. Cola, James Frates and Steven Paul, M.D. serve on our Audit Committee, which is chaired by James Frates. Our Board of Directors has determined that each member of the Audit Committee is independent for Audit Committee purposes as that term is defined in the rules of the SEC and the applicable NASDAQ rules, and have sufficient knowledge in financial and auditing matters to serve on the Audit Committee. Our Board of Directors has designated James Frates as an “Audit Committee financial expert,” as defined under the applicable rules of the SEC.

The Audit Committee’s responsibilities include:

- appointing, approving the compensation of, and assessing the independence of our independent registered public accounting firm;
- pre-approving auditing and permissible non-audit services, and the terms of such services, to be provided by our independent registered public accounting firm;
- reviewing the overall audit plan with our independent registered public accounting firm and members of management responsible for preparing our consolidated financial statements;

Table of Contents

- reviewing and discussing with management and our independent registered public accounting firm our annual and quarterly consolidated financial statements and related disclosures as well as critical accounting policies and practices used by us;
- coordinating the oversight and reviewing the adequacy of our internal control over financial reporting;
- establishing policies and procedures for the receipt and retention of accounting-related complaints and concerns;
- recommending, based upon the Audit Committee's review and discussions with management and our independent registered public accounting firm, whether our audited consolidated financial statements shall be included in our Annual Report on Form 10-K;
- monitoring the integrity of our consolidated financial statements and our compliance with legal and regulatory requirements as they relate to our consolidated financial statements and accounting matters;
- preparing the Audit Committee report required by SEC rules to be included in our annual proxy statement;
- reviewing all related person transactions for potential conflict of interest situations and approving all such transactions; and
- reviewing quarterly earnings releases and scripts.

The Audit Committee held four meetings during 2015. The Audit Committee operates under a written charter that satisfies the applicable standards of the SEC and NASDAQ. A copy of the Audit Committee charter is available on our website at <http://investor.sagerx.com/corporate-governance.cfm>.

Identifying and Evaluating Director Nominees. Our Board of Directors is responsible for selecting its own members. The Board of Directors delegates the selection and nomination process to the Nominating and Corporate Governance Committee, with the expectation that other members of the Board of Directors, and of management, will be requested to take part in the process as appropriate.

Generally, the Nominating and Corporate Governance Committee identifies candidates for director nominees in consultation with management, through the use of search firms or other advisors, through the recommendations submitted by stockholders or through such other methods as the Nominating and Corporate Governance Committee deems to be helpful to identify candidates. Once candidates have been identified, the Nominating and Corporate Governance Committee confirms that the candidates meet all of the minimum qualifications for director nominees established by the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee may gather information about the candidates through interviews, detailed questionnaires, comprehensive background checks or any other means that the Nominating and Corporate Governance Committee deems to be appropriate in the evaluation process. The Nominating and Corporate Governance Committee then meets as a group to discuss and evaluate the qualities and skills of each candidate, both on an individual basis and taking into account the overall composition and needs of our Board of Directors. Based on the results of the evaluation process, the Nominating and Corporate Governance Committee recommends candidates for the Board of Director's approval as director nominees for election to the Board of Directors.

Minimum Qualifications. The Nominating and Corporate Governance Committee will consider, among other things, the following qualifications, skills and attributes when recommending candidates for the Board of Director's selection as nominees for the Board of Directors and as candidates for appointment to the Board of Director's committees. The nominee shall have the highest personal and professional integrity, shall have demonstrated exceptional ability and judgment, and shall be most effective, in conjunction with the other nominees to the Board of Directors, in collectively serving the long-term interests of the stockholders.

In evaluating proposed director candidates, the Nominating and Corporate Governance Committee may consider, in addition to the minimum qualifications and other criteria for Board of Directors membership approved by the Board of Directors from time to time, all facts and circumstances that it deems appropriate or advisable, including, among other things, the skills of the proposed director candidate, his or her depth and breadth of professional experience or other background characteristics, his or her independence and the needs of the Board of Directors.

Stockholder Recommendations. Stockholders may submit recommendations for director candidates to the Nominating and Corporate Governance Committee by sending the individual's name and qualifications to our Secretary at Sage Therapeutics, Inc., 215 First Street, Cambridge, Massachusetts, 02142, who will forward all recommendations to the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee will evaluate any candidates recommended by stockholders against the same criteria and pursuant to the same policies and procedures applicable to the evaluation of candidates proposed by directors or management.

The Board of Directors provides to every securityholder the ability to communicate with the Board of Directors, as a whole, and with individual directors on the Board of Directors through an established process for securityholder communication. Risk Oversight. Our Board of Directors oversees the management of risks inherent in the operation of our business and the implementation of our business strategies. Our Board of Directors performs this oversight role by using several different levels of review. In connection with its reviews of the operations and corporate functions of our company, our Board of Directors addresses the primary risks associated with those operations and corporate functions. In addition, our Board of Directors reviews the risks associated with our company's business strategies periodically throughout the year as part of its consideration of undertaking any such business strategies.

Each of the committees of our Board of Directors also oversees the management of our risk that falls within the committee's areas of responsibility. In performing this function, each committee has full access to management, as well as the ability to engage advisors. Our Chief Financial Officer provides reports to the Audit Committee, and is responsible for identifying, evaluating and implementing risk management controls and methodologies to address any identified risks. In connection with its risk management role, our Audit Committee meets privately with representatives from our independent registered public accounting firm, and privately with our Chief Financial Officer. The Audit Committee oversees the operation of our risk management program, including the identification of the primary risks associated with our business and periodic updates to such risks, and reports to our Board of Directors regarding these activities.

Code of Business Conduct and Ethics. We have adopted a Code of Business Conduct and Ethics that applies to all of our employees, officers and directors, including those officers responsible for financial reporting. The current version of the Code of Business Conduct and Ethics is available on our website at <http://investor.sagerx.com/corporate-governance.cfm>. A copy of the Code of Business Conduct and Ethics may also be obtained, free of charge, upon a request directed to: Sage Therapeutics, Inc., 215 First Street, Cambridge, Massachusetts, 02142 Attention: SVP, General Counsel. Corporate Governance Guidelines. Our Board of Directors has adopted corporate governance guidelines to assist and guide its members in the exercise of their responsibilities. These guidelines should be interpreted in accordance with any requirements imposed by applicable federal or state law or regulation, NASDAQ and our certificate of incorporation and By-laws. Our corporate governance guidelines are available in the corporate governance section of our website at <http://investor.sagerx.com/corporate-governance.cfm>. Although these corporate governance guidelines have been approved by our Board of Directors, it is expected that these guidelines will evolve over time as customary practice and legal requirements change. In particular, guidelines that encompass legal, regulatory or exchange requirements as they currently exist will be deemed to be modified as and to the extent that such legal, regulatory or exchange requirements are modified. In addition, the guidelines may also be amended by our Board of Directors at any time as it deems appropriate.

If this proposal is not approved at the Annual Meeting, our Board of Directors will reconsider its appointment. Even if the appointment is ratified, the Audit Committee may, in its discretion, direct the appointment of a different independent registered accounting firm at any time during the year if the Audit Committee determines that such a change would be in our stockholders' best interests.

PricewaterhouseCoopers LLP has audited our financial statements for the fiscal years ended December 31, 2015 and 2014. Vote Required and Board of Directors' Recommendation

The approval of Proposal 2 requires that a majority of the votes properly cast vote FOR this proposal. Shares that are voted "abstain" will not affect the outcome of this proposal.

Our Board of Directors recommends that stockholders vote FOR ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2016.

PROPOSAL 3

ADVISORY VOTE ON THE FREQUENCY OF ADVISORY VOTES ON EXECUTIVE COMPENSATION

In Proposal 3, we are asking our stockholders to cast a non-binding advisory vote regarding the frequency of future executive compensation advisory votes. Stockholders may vote for a frequency of every one, two or three years, or may abstain.

After careful consideration, our Board of Directors recommends that an advisory vote on executive compensation should be held every year. Our Board of Directors believes that an annual executive compensation advisory vote will facilitate more direct stockholder input on executive compensation. An annual executive compensation advisory vote is consistent with our policy of reviewing our compensation programs annually, as well as considering input from our stockholders on corporate governance and executive compensation matters. We believe an annual vote would be the best governance practice for our company at this time.

Vote Required and Board of Directors' Recommendation

For the reasons discussed above, our Board of Directors recommends that stockholders vote to hold the advisory vote on executive compensation every year. Stockholders are not voting, however, to approve or disapprove of this particular recommendation. The proxy card provides for four choices, and stockholders are entitled to vote on whether the advisory vote on executive compensation should be held every one, two, or three years, or to abstain from voting. The frequency choice that receives the highest number of votes cast will be considered to be the preferred frequency of our stockholders as to when we hold future non-binding stockholder advisory "say-on-pay" votes on executive compensation.

As this vote is advisory, it will not be binding upon our Board of Directors and our Board of Directors may decide that it is in the best interest of our stockholders to hold an advisory vote on executive compensation more or less frequently than the frequency receiving the most votes cast by our stockholders. However, the Board of Directors will carefully consider the outcome of this vote when considering the frequency of future advisory votes on executive compensation.

Our Board of Directors recommends that stockholders vote to hold the advisory vote on executive compensation every year.

TRANSACTION OF OTHER BUSINESS

Our Board of Directors knows of no other matters that will be presented for consideration at the Annual Meeting. If any other matters are properly brought before the Annual Meeting, it is the intention of the persons named in the accompanying proxy to vote on such matters in accordance with their best judgment.

EXECUTIVE OFFICER AND DIRECTOR COMPENSATION

Compensation Discussion and Analysis

Our executive compensation programs are designed to attract, motivate and retain qualified and talented executives, motivating them to achieve our business goals, and rewarding them for superior short-term and long-term performance. In particular, our compensation programs are intended to reward the achievement of specified pre-determined quantitative and qualitative corporate and individual performance goals and objectives, and to align the interests of our senior management team with those of our stockholders in order to attain our ultimate objective of delivering important new medicines and increasing stockholder value.

Our Compensation Committee is responsible for overseeing our compensation and benefit plans and policies; administering our equity incentive plans; reviewing and approving annually all compensation decisions relating to our executive officers; and making recommendations to the full Board of Directors on compensation for our Chief Executive Officer. The Compensation Committee considers recommendations from our Chief Executive Officer regarding the compensation of our executive officers other than himself. Our Compensation Committee has the authority under its charter to engage the services of a consulting firm or other outside advisor to assist it in designing our compensation programs and in making compensation decisions. Arnosti Consulting is our current advisor. Our Compensation Committee has assessed the independence of Arnosti Consulting consistent with NASDAQ listing standards, and has concluded that the engagement of Arnosti Consulting does not raise any conflict of interest.

This section discusses the principles underlying our policies and decisions with respect to the compensation of our executive officers who are named in the Summary Compensation Table below, or our “named executive officers,” and all material factors relevant to an analysis of these policies and decisions. Our named executive officers are:

- Jeffrey M. Jonas, M.D., our President and Chief Executive Officer;
- Kimi Iguchi, our Chief Financial Officer and Treasurer;
- Albert J. Robichaud, Ph.D., our Chief Scientific Officer;
- Stephen J. Kanés, M.D., Ph.D., our Chief Medical Officer; and
- Thomas D. Anderson, our Chief Commercial Strategy Officer.

Executive Summary and Corporate Background

We are a clinical-stage biopharmaceutical company committed to developing and commercializing novel medicines to treat life-threatening central nervous system, or CNS, disorders, where there are inadequate or no approved existing therapies. We are targeting CNS indications where patient populations are easily identified, clinical endpoints are well-defined, and development pathways are feasible.

Our executive compensation program is designed to:

- attract and retain qualified and talented executives;
- be fair, reasonable and market competitive;
- provide a strong link between performance and pay, and give us the ability to differentially invest in top performance;
- be flexible to support our long-term growth strategy; and
- align the incentives of our executive officers with our corporate strategies, business objectives and the long-term interests of our stockholders, and promote long-term ownership by our executives.

[Table of Contents](#)

To achieve these objectives, our Compensation Committee evaluates our executive compensation program with the goal of setting total compensation at levels that align with a total rewards strategy appropriate for our size and stage. Specifically, our Compensation Committee targets total cash compensation for our executive officers at or near market median for fixed compensation, with opportunity to achieve upper quartile positioning for exceptional company and individual performance. Our Compensation Committee targets total equity incentive compensation for our executive officers between the market median and the upper quartile of our peer group, with achievement of exceptional long term company performance resulting in upper quartile value of incentives.

Because we have a pay-for-performance philosophy, actual compensation levels are correlated to the achievement of corporate goals and individual performance. As described below, during 2015, we made significant progress on our clinical development and business goals, including: commencing a Phase 3 clinical trial of SAGE-547 in the treatment of super-refractory status epilepticus, or SRSE; finalizing data from proof-of-concept clinical trials of SAGE-547 in the treatment of severe post-partum depression and essential tremor; commencing a Phase 1 clinical trial of SAGE-217 in healthy volunteers; and delivering three new compounds for further development, including an NMDA receptor modulator and two new GABA_A receptor modulators. Based on our performance during 2015 in achieving our goals and in our transitioning to a company with strong value drivers for potential future growth, our Board of Directors assigned a corporate performance rating of 125% with respect to our corporate goals for 2015.

Compensation Objectives and Philosophy

Our executive compensation programs are designed to attract, motivate and retain qualified and talented executives, motivating them to achieve our business goals and rewarding them for superior short-term and long-term performance. In particular, our compensation programs are intended to reward the achievement of specified pre-determined quantitative and qualitative corporate and individual performance goals and objectives, and to align the interests of our senior management team with those of our stockholders in order to attain our ultimate objective of increasing stockholder value while delivering important new medicines to patients.

Executive Compensation Elements

The primary elements of our executive compensation program are:

- base salary;
- annual performance-based cash incentives;
- equity incentive awards;
- severance and change in control benefits;
- broad-based health and welfare benefits; and
- 401(k) plan available to all employees.

We award annual merit-based increases in base salary based upon an assessment of each executive's performance, the scope of his or her responsibilities and appropriate benchmarks. We determine annual performance-based cash incentives for our executive officers based on achievement of a combination of corporate goals and individual performance. We typically grant stock options to our executive officers upon commencement of their employment, annually following a review of their individual performance and in connection with any promotion. The mix of compensation components is designed to reward annual results as well as drive long-term company performance and create stockholder value.

Our Compensation Committee does not have a formal or informal policy for allocating between long-term and short-term compensation, between cash and non-cash compensation or among different forms of non-cash compensation. Instead, our Compensation Committee exercises its judgment to determine what it believes to be

[Table of Contents](#)

the appropriate level and mix of the various compensation components, after reviewing information provided by Arnosti Consulting and other relevant data. We generally strive to provide our executive officers with a balance of short-term and long-term incentives to encourage and reward consistently strong performance. Ultimately, the objective in allocating between long-term and currently paid compensation is to ensure adequate base compensation to attract and retain talent, while providing incentives to maximize long-term value for our company and our stockholders.

Defining and Comparing Compensation to Market Benchmarks

In making compensation decisions, our Compensation Committee reviews publicly available compensation data and subscription survey data provided by Arnosti Consulting from a peer group of publicly traded, national and regional companies in the biopharmaceutical and biotechnology industries. Our Compensation Committee establishes our peer group, based on the recommendation of Arnosti Consulting, using a balance of the following criteria:

- companies whose stage of development (revenue and R&D expense) and market capitalization are similar, though not necessarily identical, to ours;
- companies with similar executive positions to ours;
- companies against which we believe we compete for executive talent; and
- public companies based in the United States whose compensation and financial data are available in proxy statements or through widely available compensation surveys.

Based on these criteria, our peer group for 2015, referred to as our 2015 peer group, was approved by our Compensation Committee in September 2015.

2015 Peer Group

Acceleron Pharma, Inc	Juno Therapeutics, Inc.
Achillion Pharmaceuticals, Inc.	Kite Pharmaceuticals, Inc.
Agios Pharmaceuticals, Inc.	Ophthotech Corp.
Amicus Therapeutics, Inc.	Portola Pharmaceutical Inc.
Cempra, Inc.	Puma Biotechnology, Inc.
Chimerix Inc.	Relypsa Inc.
Clovis Oncology, Inc.	Sarepta Therapeutics, Inc.
Dynavax Technologies Corp.	Spark Therapeutics, Inc.
Eagle Pharmaceuticals, Inc.	Tesaro, Inc.
Esperion Therapeutics, Inc.	Ultragenyx Pharmaceutical Inc.
Heron Therapeutics, Inc.	Zafgen, Inc.
Insmed Inc.	Ziopharm Oncology Inc.
Intra-Cellular Therapeutics, Inc.	

Our Compensation Committee reviews the companies in our peer group annually, based on Arnosti Consulting's recommendations regarding which companies should be included in the peer group, and makes adjustments as necessary to ensure the peer group continues to properly reflect the market in which we compete for talented executives. For example, the changes between the 2014 peer group and the 2015 peer group were the result of certain companies being acquired, certain companies moving to a different stage of development (revenue and R&D expense) or market capitalization, and other changes to better align the peer group.

We believe that the compensation practices of our 2015 peer group provided us with appropriate compensation benchmarks for evaluating the compensation of our executive officers based on 2015 performance. Notwithstanding the similarities of the 2015 peer group to us, due to the nature of our business, we compete for executive talent with many public companies that are larger and more established than we are, or that possess

[Table of Contents](#)

greater resources than we do, and with smaller private companies that may be able to offer greater equity compensation potential, as well as with prestigious academic and non-profit institutions. Our Compensation Committee takes these factors into account in assessing executive compensation.

To achieve our objectives, our Compensation Committee evaluates our executive compensation program with the goal of setting total compensation at levels that align with a total rewards strategy appropriate for our size and stage. Specifically, our Compensation Committee targets compensation for our executive officers as follows:

- base salaries at or near market median of our 2015 peer group and, for top performers, between the market median and 75th percentile;
- annual cash incentive awards at approximately the market median of our 2015 peer group for the target opportunity with significant variability in actual payments based on corporate and individual performance;
- total annual equity incentive awards, provided in the form of stock options, targeting between median and upper quartile of our 2015 peer group for target performance with achievement of exceptional corporate and individual performance resulting in upper quartile values to promote long terms ownership; and
- total compensation for our executives targeted at or near the market median of compensation paid to similarly situated executives of the companies in our 2015 peer group and between market media and the 75th percentile for top performers.

Our Compensation Committee may consider other criteria, including market factors; the experience level of the executive responsibilities; the executive's contributions in helping to achieve established corporate goals; and overall contributions and performance, in determining variations to this general target range.

Key Performance Factors in Determining Executive Compensation

As the biopharmaceutical industry is characterized by a very long product development cycle, including a lengthy research and development period and a rigorous approval phase involving human testing and governmental regulatory approval, many of the traditional benchmarking metrics, such as product sales, revenues and profits are inappropriate for a clinical-stage biopharmaceutical company, such as Sage. Instead, the specific performance factors our Compensation Committee considers when determining the compensation of our named executive officers include:

- key research and development achievements;
- initiation and progress of clinical trials for our product candidates;
- expansion of our manufacturing and operational capabilities on a global basis;
- achievement of regulatory milestones;
- new business initiatives including financings; and
- managing our growth while maintaining a high-performing organization and culture.

Annual corporate goals are proposed by our senior management team prior to the beginning of each year, and approved by our Board of Directors. During the last quarter of each year, our Compensation Committee, with the input of the senior management team, evaluates our corporate performance as compared to the corporate goals, and taking into account other corporate achievements and developments, assigns a corporate performance rating. Our Compensation Committee also evaluates the individual performance of our executive officers each year, with the input of our Board of Directors, in the case of our Chief Executive Officer's individual performance, and with the input of our Chief Executive Officer, in the case of the evaluation of the other executive officers. After the end of each year, our Compensation Committee determines executive compensation levels, or in the case of our Chief Executive Officer, recommends compensation levels to our Board of Directors, based on the overall corporate performance against the established corporate goals, as well as each individual executive officer's contributions to achievement of the corporate goals and individual performance. In addition, our Compensation Committee may apply its discretion, as it deems appropriate, in determining or recommending executive compensation.

[Table of Contents](#)

In line with this process, our Compensation Committee assessed the performance of Jeffrey Jonas, our Chief Executive Officer, in 2015 based on the level of attainment of our corporate goals, and his leadership in execution of our strategic plans resulting in a substantial clinical-stage pipeline with strong drivers for future growth. In assessing the individual performance of our named executive officers, other than our Chief Executive Officer, the Compensation Committee, based on the input of our Chief Executive Officer, considered each such officer's individual contributions to completion of our corporate goals, and the officer's individual achievements in helping to build the Company and execute on our strategy. These achievements include the following:

- In 2015, Dr. Kanés led our clinical and regulatory teams responsible for completing the Phase 1/2 clinical trial of SAGE-547 in SRSE; designing and commencing the ongoing Phase 3 clinical trial of SAGE-547 in SRSE; reaching agreement with the FDA under a special protocol assessment for the Phase 3 trial; completing proof-of-concept studies of SAGE-547 in essential tremor and severe PPD; and submitting INDs for SAGE-217 and SAGE-689.
- In 2015, Ms. Iguchi guided our financing activities, leading to successful follow-on public offerings in April 2015 and January 2016, helping to finance our expanding clinical activities and diversify our investor base. She also made significant strides in building the Finance and Investor Relations functions.
- In 2015, Dr. Robichaud's led our successful discovery efforts that culminated in selection of three new discovery compounds for further development, including our first NMDA receptor modulator; advanced work on additional compounds targeting GABA_A or NMDA receptors and expansion of our compound library; and continued to develop and lead implementation of our strategy for protection of intellectual property.
- In 2015, Mr. Anderson was instrumental in helping us understand the markets our product candidates, if successfully developed, are intended to target; leading our strategic planning efforts; building our program management functions; leading launch planning efforts and beginning our pre-launch commercial building activities.

In 2015, our Compensation Committee established the cash bonus opportunity for each member of our senior management team under the 2015 annual incentive program, representing a percentage of each individual's base salary. The bonus targets for 2015 performance for our named executive officers were 50% for Dr. Jonas, and 35% for each of Dr. Kanés; Dr. Robichaud; Ms. Iguchi; and Mr. Anderson. For 2015, our Chief Executive Officer's bonus was based entirely on performance relative to corporate goals and the bonus of our other named executive officers was based 80% on corporate goals and 20% on individual performance.

Our Compensation Committee typically grants annual stock option awards, and determines changes in base salary and the amount of any cash incentive payments, at its first regularly scheduled meeting of the new year. Our Compensation Committee may also review the compensation of our executive officers throughout the course of the year. With respect to year-end reviews, any changes in base salary are effective at the beginning of the following year. The cash incentive payments awarded under our 2015 annual incentive bonus program were paid in February 2016.

Base Salary

Base salary is intended to provide compensation for day-to-day performance. The Compensation Committee believes that a competitive base salary is a necessary element of any compensation program that is designed to attract and retain talented and experienced executives. Base salaries for our executive officers are intended to be competitive with those received by other individuals in similar positions at the companies with which we compete for talent. Base salaries are originally established at the time the executive is hired based on individual experience, skills and expected contributions, our understanding of what executives in similar positions at peer companies are paid, and also negotiations during the hiring process. The base salaries of our executive officers are reviewed annually and may be adjusted to reflect market conditions and our executives' performance during the prior year as well as the financial position of the company, or if there is a change in the scope of the officer's responsibilities.

[Table of Contents](#)

At the beginning of 2015, our Compensation Committee reviewed the base salary and overall compensation paid to Jeffrey Jonas, our Chief Executive Officer. Based on his accomplishments during the prior year and the comparison of his base salary to the base salary of chief executive officers in our 2014 peer group, the Compensation Committee recommended that our Board of Directors approve an increase in the annual base salary paid to Dr. Jonas from \$425,000 to \$450,000. Our Board of Directors agreed with the recommendation of the Compensation Committee.

At the beginning of 2015, our Compensation Committee approved merit increases in base salary for each of our other named executive officers serving at that time, based upon the executive officer's individual performance and the comparison of his or her base salary to the base salary of executive officers in comparable positions in our 2014 peer group. The table below sets forth the adjustments to base salary, in dollars and as a percentage, for each of our named executive officers serving at the beginning of 2015:

Name	Base Salary Adjustments		
	2014 Base Salary	2015 Base Salary	Increase (%)
Jeffrey M. Jonas, M.D.	\$ 425,000	\$ 450,000	5.8%

Dr. Robichaud also received a 7% market adjustment in May, 2015, increasing his salary to \$337,050, effective as of January 1, 2015. The Compensation Committee took this action to more closely align Dr. Robichaud's salary with those executive officers in comparable positions in our peer group.

Performance-Based Cash Incentive Bonus Program

Our Compensation Committee has the authority to award annual performance-based cash incentive bonuses to our executive officers, and to make recommendations to the full Board of Directors for approval of performance-based cash incentive bonuses for the Chief Executive Officer. The bonus targets for 2015 performance for our named executive officers were 50% for Dr. Jonas, and 35% for each of Dr. Kanés; Dr. Robichaud; Ms. Iguchi; and Mr. Anderson.

In making its determination regarding awards under the 2015 annual cash incentive program, our Compensation Committee considered our success against our 2015 corporate goals. The 2015 corporate goals approved by our Board of Directors, and the relative weightings assigned to each goal at the beginning of the year, were as follows:

- Advance clinical pipeline (50%)
 - Begin pivotal study of SAGE-547 in SRSE
 - File Investigational New Drug Application, or IND, and begin Phase 1 studies of SAGE-217 and SAGE-689
 - Finalize data from one proof-of-concept study of SAGE-547
 - Establish supply chain for SAGE-547
- Deliver a sustainable and innovative orphan drug pipeline, and gain external recognition of leadership position in CNS disorders (20%)
 - Support two lead optimization programs, and identify one development candidate
 - Initiate IND-enabling studies of development candidate

Table of Contents

- Complete preclinical validation for GABA positive allosteric modulator
- Increase SRSE disease awareness
- Drive business performance (20%)
 - Develop and execute financing strategy to fund operations, including diversifying our stockholder base
 - Deliver data-driven rationale for SAGE-547’s value proposition
- Build and sustain a high performing organization and culture (10%)

Our Compensation Committee determined that we made significant progress in 2015 in achieving these clinical development and business goals, including:

- commencing a Phase 3 clinical trial of SAGE-547 in the treatment of SRSE in April 2015;
- finalizing data from proof-of-concept clinical trials of SAGE-547 in the treatment of severe post-partum depression and essential tremor;
- filing an IND for SAGE-217 in August 2015, and commencing a Phase 1 clinical trial of SAGE-217 in healthy volunteers;
- delivering three new compounds for further development, including an NMDA receptor modulator and two new GABA_A receptor modulators;
- completing registration runs for SAGE-547 as we build our supply chain;
- significant progress toward building a high performing organization and culture, including hiring 28 new employees, augmenting the senior leadership team, and building operating models and development plans;
- increasing awareness of SRSE and expanding Sage’s scientific leadership in CNS through publications, presentations and attendance at medical and scientific conferences;
- completion of initial market and pricing studies related to SRSE; and
- completion of a follow-on offering in April 2015.

Based on our performance during 2015 in achieving our goals and in transitioning Sage to a company with strong value drivers for potential future growth, the Board of Directors determined that our corporate achievement was 125% as compared to our corporate goals for 2015.

In February 2016, based on the above corporate goal achievement assessment, individual performance, as noted above, in the case of executive officers other than our Chief Executive Officer, and analysis of the data from our 2015 peer group, our Compensation Committee approved performance-based cash incentive bonuses to our named executive officers for 2015 performance in the amounts listed below with the full Board of Directors approving Dr. Jonas’ payment.

Equity Incentive Compensation

Our equity incentive compensation program is designed to:

- reward demonstrated leadership and performance;
- align our executive officers’ interests with those of our stockholders;

[Table of Contents](#)

- retain our executive officers;
- maintain competitive levels of executive compensation; and
- motivate our executive officers for outstanding performance.

The market for qualified and talented executives in the biopharmaceutical industry is highly competitive, and we compete for talent with many companies that have greater resources than we do. Accordingly, we believe equity compensation is a crucial component of any competitive executive compensation package we offer.

Historically, our equity awards have generally taken the form of stock options. We typically grant stock options to each of our executive officers upon commencement of employment; annually in conjunction with our review of individual performance; in connection with a promotion; or as a special incentive.

All stock option awards to our executive officers are approved by our Compensation Committee and, other than stock option awards to new hires, are typically granted at our Compensation Committee's first regularly scheduled meeting at the beginning of the year. Stock option awards vary among our executive officers based on their positions and annual performance assessments. In addition, our Compensation Committee reviews all components of the executive's compensation to ensure that his or her total compensation is aligned with our overall philosophy and objectives. All stock options granted to our executives have exercise prices equal to the fair market value of our common stock on the date of grant, so that the recipient will not earn any compensation from his or her options unless our share price increases above the exercise price on the date of grant. Accordingly, this portion of our executive officers' compensation is at risk, and is directly aligned with stockholder value creation.

In addition, the stock options granted to our executive officers typically vest over four years, which we believe provides an incentive to our executives to add value to the company over the long-term and to remain with Sage. Typically, the stock options we grant to our executives have a ten-year term, and vest as to 25% of the shares on the first anniversary of their hire date or date of grant and then monthly thereafter until the fourth anniversary of such date. A portion of the options granted to our executive officers in 2015 vest upon the achievement of certain clinical and regulatory milestones that we believe are aligned with potential value creation for our stockholders. Vesting of option grants to employees ceases upon termination of employment, and exercise rights typically cease three months following termination of employment, except in the case of death or disability. Prior to the exercise of an option, the stock option holder does not have any rights as a stockholder with respect to the shares subject to such option, including voting rights and the right to receive dividends or dividend equivalents.

Our insider trading policy expressly prohibits short sales and derivative transactions of our stock by our named executive officers, directors and specified other employees, including short sales of our securities, including short sales "against the box," purchases or sales of puts, calls or other derivative securities of the company or any derivative securities that provide the economic equivalent of ownership of any of our securities or an opportunity, direct or indirect, to profit from any change in the value of our securities, or other hedging or monetization transactions accomplished through the use of prepaid variable forwards, equity swaps, collars and exchange funds. In addition, our insider trading policy expressly prohibits our named executive officers, directors and specified other employees from purchasing our securities on margin, borrowing against company securities held in a margin account, or pledging our securities as collateral for a loan.

Equity incentive grants to our named executive officers are made at the discretion of the Compensation Committee under the terms of our 2014 Stock Option and Incentive Plan, or the 2014 Plan, except for equity incentive grants for the Chief Executive Officer which are approved by the full Board of Directors. In 2015, the Compensation Committee made stock option grants to our named executive officers as specified in the "Outstanding Equity Awards at Fiscal Year-End—2015" table below. Stock options have exercise prices equal to at least fair market value of our common stock on the date of grant, and reward executive officers only if the stock price increases from the date of grant.

The following table sets forth information as of December 31, 2015 regarding shares of common stock that may be issued under our equity compensation plans, consisting of the 2011 Stock Option and Grant Plan, or the 2011 Plan, the 2014 Plan and our 2014 Employee Stock Purchase Plan. As of the closing of the initial public offering, no additional equity awards are made under our 2011 Plan.

Equity compensation plans not approved by security holders	N/A	N/A	N/A
Total	3,002,809	\$ 26.67	1,137,511

- (1) Includes 3,002,809 shares of common stock issuable upon the exercise of outstanding options. Does not include shares of restricted stock as they have been reflected in our total shares outstanding.
- (2) Does not include purchase rights accruing under the 2014 Employee Stock Purchase Plan because the purchase right (and therefore the number of shares to be purchased) will not be determined until the end of the purchase period.
- (3) As of December 31, 2015, there were 859,363 shares available for grant under the 2014 Plan and 278,148 shares available for grant under the 2014 Employee Stock Purchase Plan.

Stock Option Granting Practices

Delegation to Our Chief Executive Officer

Currently, all of our employees, including our named executive officers, are eligible to participate in our 2014 Plan. All new employees are granted stock options when they start employment, and all continuing employees are eligible for stock option awards on an annual basis based on performance and upon promotions to positions of greater responsibility. Our Compensation Committee has delegated to Dr. Jonas, our Chief Executive Officer, the authority to make stock option awards under our 2014 Plan within approved guidelines to new hires and in connection with promotions, other than grants to the leadership team members. The number of stock options he may grant to any one individual must be within the range specifically set by our Compensation Committee for these awards. The exercise price of such stock options must be equal to the closing price of our common stock on NASDAQ on the first business day of the calendar month following the date of hire or promotion. With respect to stock option awards to new hires other than leadership team members, Dr. Jonas typically approves the award prior to the employee's first date of employment with such authority and provides that the award is to be granted to the new hire on the first business day of the calendar month following the date of his or her first date of regular employment. With respect to stock option awards made in connection with promotions other than of vice presidents and executive officers, Dr. Jonas approves the award in connection with such promotion, and provides that the award is to be granted on the first business day of the calendar month following the date of such promotion. Dr. Jonas is required to maintain a list of stock options granted pursuant to such delegated authority, and report to our Compensation Committee regarding such awards.

Employee Benefits

In addition to the primary elements of compensation described above, the named executive officers also participate in the same broad-based employee benefits programs available to all of our employees, including

[Table of Contents](#)

health insurance, life and disability insurance, dental insurance and our 401(k) plan. The Company does not provide special benefits to its executive officers.

Other Compensation Program Features

In addition to our direct compensation elements, the following compensation program features are designed to align our executive team with stockholder interests and market best practices:

- we do not offer any tax gross-up payments to our executive team for any change-of-control payments;
- we prohibit our executive team from engaging in hedging transactions with our securities or pledging our securities; and
- we do not offer our executive team any substantially enhanced benefits or perquisites when compared to our overall employee population.

Compliance with IRS Code Section 162(m)

Section 162(m) of the Internal Revenue Code of 1986, as amended, generally disallows a tax deduction to public companies for compensation in excess of \$1 million per person paid to a company's chief executive officer and its three other officers (other than the chief/principal financial officer) whose compensation is required to be disclosed to stockholders pursuant to the Exchange Act by reason of being among the company's most highly compensated officers.

Qualified performance-based compensation is not subject to the deduction limitation if specified requirements are met. We periodically review the potential effects of Section 162(m) and we consider whether to structure the performance-based portion of our executive compensation to comply with exemptions in Section 162(m), so that the compensation remains tax deductible to us. However, our Compensation Committee may, in its judgment, authorize compensation payments that do not comply with the exemptions in Section 162(m) when it believes that such payments are appropriate to attract, motivate and retain executive talent and are in our best interest and that of our stockholders.

Rule 10b5-1 Sales Plans

Our policy governing transactions in our securities by directors, officers and employees permits our officers, directors and employees to enter into trading plans complying with Rule 10b5-1 under the Exchange Act. Generally, under these trading plans, the individual relinquishes control over the transactions once the trading plan is put into place. Accordingly, sales under these plans may occur at any time, including possibly before, simultaneously with, or immediately after significant events involving our company.

Executive Officer Stock Ownership Guidelines.

Because of the importance of linking the interests of management and stockholders, in 2015, our Compensation Committee established stock ownership guidelines for our executive officers. These guidelines specify the number of shares that our executive officers must accumulate and hold within five years from the later of the effective date of implementation of the guidelines or the date the individual was hired or promoted to an executive officer position. Under the guidelines, ownership targets are set at a value greater than or equal to four times base salary in the case of our Chief Executive Officer, and greater than or equal to two times base salary in the case of our other executive officers. Unvested restricted stock and vested, unexercised in-the-money stock options count toward satisfying these ownership guidelines.

Compensation Risk Assessment

Our Compensation Committee periodically reviews and consider whether our compensation programs and policies create risks that are reasonably likely to have a material adverse effect on the Company. We believe that our executive compensation program does not encourage excessive or unnecessary risk taking. This is

[Table of Contents](#)

primarily due to the fact that our compensation programs are designed to encourage our executive officers and other employees to remain focused on both short-term and long-term strategic goals. We also have a Code of Business Conduct and Ethics in place to prevent conduct by our executive officers and other employees that is inconsistent with applicable laws and regulations. Disciplinary measures for violations of the Code of Business Conduct and Ethics may include a reduction or elimination of bonuses, termination of employment or restitution. In addition, the stock option agreements that govern stock options granted to the event of termination of the individual's employment "for cause." As a result, we do not believe that our compensation programs are reasonably likely to have a material adverse effect on us.

Report of the Compensation Committee on Executive Compensation

Our Compensation Committee has reviewed and discussed the "Compensation Discussion and Analysis" required by Item 402(b) of Regulation S-K with management. Based upon such review and discussions, our Compensation Committee recommended to our Board of Directors that such section be included in this proxy statement and incorporated by reference in our Annual Report on Form 10-K for the year ended December 31, 2015, which was filed with the SEC on February 29, 2016.

Pursuant to their severance agreements, in the event that any of Dr. Jonas, Dr. Kanes, Dr. Robichaud, Ms. Iguchi, or Mr. Anderson terminates his or her employment with "good reason" or is terminated without "cause" within 12 months of a "change in control" (as defined in the applicable severance agreement), such officer will be eligible to receive 12 months of base salary continuation and 12 months of COBRA continuation medical benefits subsidized by us in the case of Dr. Jonas, and 9 months of base salary continuation and 12 months of COBRA continuation medical benefits subsidized by us, in the case of Dr. Kanes, Dr. Robichaud, Ms. Iguchi, or Mr. Anderson, provided that he or she executes and does not revoke a separation agreement and release of us and our affiliates. [Table of Contents](#)

For purposes of the severance agreements with each of Dr. Jonas, Dr. Kanes, Dr. Robichaud, Ms. Iguchi and Mr. Anderson, a “change in control” shall be deemed to have occurred upon the occurrence of any one of the following events:

- the sale of all or substantially all of the assets of the Company on a consolidated basis to an unrelated person or entity;
- a merger, reorganization or consolidation pursuant to which the holders of the Company’s outstanding voting power and outstanding stock immediately prior to such transaction do not own a majority of the outstanding voting power and outstanding stock or other equity interests of the resulting or successor entity (or its ultimate parent, if applicable) immediately upon completion of such transaction;
- the sale of all of the stock of the Company to an unrelated person, entity or group thereof acting in concert; or
- any other transaction in which the owners of the Company’s outstanding voting power immediately prior to such transaction do not own at least a majority of the outstanding voting power of the Company or any successor entity immediately upon completion of the transaction other than as a result of the acquisition of securities directly from the Company.

Estimated Payment and Benefits Upon Termination or Change of Control

The amount of compensation and benefits payable to each named executive officer in various termination and change in control situations has been estimated in the tables below. The value of the option vesting acceleration was calculated for each of the tables below based on the assumption that the change in control and executive’s employment termination occurred on December 31, 2015. The closing price of the Company’s stock on NASDAQ as of December 31, 2015, the last trading day of 2015, was \$58.30, which was used as the value of the Company’s stock in the change in control. The value of the option vesting acceleration was calculated by multiplying the number of unvested option shares subject to vesting acceleration as of December 31, 2015 by the difference between the closing price of the Company’s stock as of December 31, 2015 and the exercise price for such unvested option shares.
